EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Nicanor Kohncke on August 10, 2006.

The application has been amended as follows:

Cancel claims 1-7, 9, 19, and 20.

2. The following is an examiner's statement of reasons for allowance:

Mr. Ostija-Starzewski's Declaration of June 28, 2006 has shown that the olefin polymerization processes of Ostoja-Starzewski et al. (US 6,353,064) does not provide olefin polymers with molecular weights which meet the molecular weight limitation of the instant claims. Especially, the Declaration shows that the use of cocatalyst such as aluminoxane in the polymerization process lowers the molecular weight of the olefin polymer rather than increases the molecular weight as expected. Therefore, it would not have obvious to modify the polymerization process of US 6,353,064 to product a polymer with an average viscosity molecular weight of greater than 500 kg/mol and the instant claims are deemed to be novel over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
